

	Journal Name	Impact Factor	SJR	Scope	Average Review Time	Publication Fee
1	Genome Biology and Evolution	3.940	2.58	Genome Biology and Evolution (GBE) publishes leading original research at the interface between evolutionary biology and genomics. This includes analyses of genome-scale datasets and the development of methods, which are likely best fit for the Research Article-format.	1.1 Months	\$1800.00 (Open Access)/ \$1250.00
2	BMC EVOLUTIONARY BIOLOGY	3.027	1.66	BMC Evolutionary Biology is an Open Access, peer-reviewed journal that considers articles on all aspects of molecular and non-molecular evolution of all organisms.	1.5 Months	\$2290.00 (Gold Open Access)
3	MOLECULAR AND CELLULAR BIOLOGY	3.813	3.17	Researchers find Molecular and Cellular Biology (MCB) to be an authoritative source of fundamental knowledge and new developments in all aspects of the molecular biology of eukaryotic cells.	1.5 Months	\$2400.00
4	Environmental Microbiology Reports	2.885	1.30	Environmental Microbiology Reports is an online only sister journal of Environmental Microbiology, that publishes papers reporting significant advances. The scope of the Journal encompasses the diversity of current research on microbial processes in the environment.	3.0 Months	\$3000.00
5	PLoS One	2.766	1.16	PLoS ONE features reports of original research from all disciplines within science and medicine. By not excluding papers on the basis of subject area, PLoS ONE facilitates the discovery of the connections between papers whether within or between disciplines.	2.9 Months	\$1595.00
6	BMC BIOINFORMATICS	2.213	1.48	BMC Bioinformatics is an open access journal publishing original peer-reviewed research articles in all aspects of the development, testing and novel application of computational and statistical methods for the modelling and analysis of all kinds of biological data, as well as other areas of computational biology.	1.5 Months	\$2170.00
7	G3-Genes Genomes Genetics	2.742	1.76	G3, published by the Genetics Society of America, meets the critical and growing need of the genetics community for rapid review and publication of important results in all areas of genetics. G3 offers the opportunity to publish the puzzling finding.	1.5 months	\$2145.00
8	BMC Genomics	3.730	2.11	BMC Genomics is an open access journal publishing original peer-reviewed research articles in all aspects of genome-scale analysis, functional genomics, and proteomics.	3.1 months	\$2145.00
9	Biology Letters	3.345	1.91	Launched as an independent journal in 2005 Biology Letters is a primarily online, peer-reviewed journal that publishes short, high-quality articles from across the biological sciences.	1.4 Months	\$2380.00
10	FUNCTIONAL & INTEGRATIVE GENOMICS	3.889	1.41	Functional & Integrative Genomics is devoted to large-scale studies of genomes and their functions, including systems analyses of biological processes.	3.0 months	\$3000.00
